The People's Action for Free and Fair Elections (PAFFREL) organisation stated that they believe that all relevant bodies must ensure that the 5 August General Election, is conducted in a free and fair manner throughout the country.

They have, issuing a Media release in this connection, stated that already a unit has been set up by them to receive complaints regarding acts of the violation of Election laws and regulations, the wanton misuse of State property for Election propaganda activities and the conducting of unauthorized Poll related

publicity campaigns by candidates.

PAFFREL has stated that it is the duty of all those engaged in the conducting of the coming Poll, to ensure an equal and balanced field for all political parties and candidates to conduct their Election related events and to seek a vote from the electorate.

They have observed that in this connection, the responsibility that is thrust on the Election Commission, the State apparatus, election watchdogs, the Media and the public to ensure a level playing field for all cannot be overstated.
